

PRODUCT DATA SHEET

Product: HDPE Feed Pipes

Number of tests: 671

Production date: 27.01.22 – 30.11.22

Physical properties					
No.	Properties	Unit	Value (Achieved range)	Value (Average)	Test method
1	MFR (190 C, 5.0 kg)	gr/10 min	0.21 – 1.03	0.268	ISO 1133
2	Density	g/cm ³	0.940 - 0.968	0.953	ISO 1183
3	Moisture content	%	0.04 - 0.29	0.12	-

Comments:

- One sample from the middle of each big bag was prepared and tested. The actual range of each property and the average value is presented in the data sheet.
- Since the density showed a good stability, it was tested for around 15% of the big bags.
- Rød spirit with a density of 0.81 gr/cm³ is used as the liquid in density test.
