

PRODUCT DATA SHEET

Product: PE-PP Ropes

Number of tests: 218

Production date: 10.02.22 – 08.12.22

Physical properties					
No.	Properties	Unit	Value (Achieved range)	Value (Average)	Test method
1	MFR (230 C, 2.16 kg)	gr/10 min	2.08 – 5.87	3.47	ISO 1133
2	Density	g/cm ³	0.882 - 0.936	0.923	ISO 1183
3	Moisture content	%	0.01 - 0.29	0.09	-

Comments:

- One sample from the middle of each big bag was prepared and tested. The actual range of each property and the average value is presented in the data sheet.
- Since the density showed a good stability, it was tested for around 25% of the big bags.
- Rød spirit with a density of 0.81 gr/cm³ is used as the liquid in density test.
